WINTER BATTERY SERVICE ON LAND

All rates apply to batteries in good working condition. Based upon technician recommendations, battery service will include either a permanent connection from the vessel battery charger to an electrical source of 50 Amp or less, or a rotation schedule in which a technician will board the vessel and plug in the battery chargers as needed over the winter season. Vessels with drafts over 5 ft will have additional labor charges at current rates. Continuous electrical service will not be guaranteed.

Connection up to 30 Amp; \$140.00 + \$195.00 labor minimum
Connection to 50 Amp; \$180.00 + \$195.00 labor minimum
